Team ID	
Project Name	Green-Predict-Pro
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A small-scale farmer	choose the most suitable crop for the upcoming season	he lacks scientific guidance on which crop matches his soil and climate	soil nutrients, rainfall and weather vary every year	Anxious about picking the wrong crop and losing income.
PS-2	An agriculture extension officer	recommend crops to multiple farmers quickly and consistently	manual advice varies from expert to expert	there is no data-driven decision tool available in the field	Frustrated by inconsistent recommendations and slow outreach.
PS-3	An agricultural researcher / policymaker	study how N, P, K, temperature, humidity, pH and rainfall influence crop choice	existing reports are static and not interactive	evidence-based planning needs an analytical platform	Motivated to design better data-driven agricultural policies.
