Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Awareness	Stage 2: Input & Prediction	Stage 3: Decision & Adoption
Actions – What does the customer do?	Hears about Green-Predict-Pro from extension officer / social media.	Opens the web app and enters N, P, K, temperature, humidity, pH and rainfall.	Reviews recommended crop, plans sowing and shares result with peers.
Touchpoint – What part of the service do they interact with?	Landing page, promo video, WhatsApp share.	Input form, prediction result page, insights dashboard.	Downloadable report, follow-up support, feedback form.
Customer Thought – What is the customer thinking?	"Is this reliable for my region?"	"Are my soil values correct? What crop will it suggest?"	"Should I follow this recommendation for the season?"
Customer Feeling – What is the customer feeling?	Curious, slightly skeptical.	Engaged and hopeful.	Confident, empowered.
Process Ownership – Who is in the lead on this?	Marketing / outreach team.	Backend ML model + Flask app.	Farmer + extension officer.
Opportunities – How can we improve this stage?	Provide vernacular explainer videos.	Auto-fill from soil test QR codes; add voice input.	Send seasonal reminders and post-harvest yield tracking.
